nTrust
SYSTEMS LIMITED

The Quick, Easy and Secure Way to File Sync and Share

Why choose **Filecloud** from nTrust?

?

Sync, Share, Collaborate

Easy to use

Share files that are too large or too confidential to send by email

File syncing across PC, iOS, Android device, laptop or Mac

Sync data to devices for use when there is no internet connection

Highly Secure Private Cloud

Surrey based datacentre with 99.999% uptime

Secure, fully encrypted data storage

Fully HIPAA compliant audit trail for confidential files

Built-in ransomware protection

Only you own your data, unlike public cloud file sharing systems such as Dropbox

nTrust Systems Help Desk

Call nTrust Systems to block or wipe data in your FileCloud folder if you lose your device

nTrust Systems Limited is a well-established, solid and secure business with a long trading history

...because internet security is crucial to every business and by using FileCloud you are demonstrating to your clients, customers and staff how seriously you take the issue.

How **FileCloud** Compares

| Question	Filecloud	Box	Dropbox	iDeals

Country data stored in?	Surrey, England	USA	USA	Multiple sites
Help contact?	nTrust Systems help desk	?	?	?
Can I visit the datacentre?	✅	❌	❌	❌
Who owns 'my' data?	You	Seek legal advice	Seek legal advice	Seek legal advice

FileCloud has powerful built-in ransomware protection.

Ransomware is a type of malware that encrypts digital files, forcing the business to pay a ransom to unlock the data. Protection is important because fraudsters target public cloud providers and end-user computers can get infected via spoof email messages.

FileCloud by nTrust Systems is a secure and competitively-priced file sync and share solution

About nTrust Systems

Based in Surrey, but operational throughout the south east of England, our offices are adjacent to one of the most secure server hubs in the UK, where we host our Cloud data.

Our business has grown organically since 2002 with a constant stream of referrals from clients appreciating our technical proficiency, sound advice and exceptional service. We are extremely proud of our 98% client retention rate and believe that this fact alone demonstrates why

nTrust Systems continues to succeed in a competitive market.
Everyone at nTrust Systems is committed to helping companies get the most from their IT. We offer support packages, hosted desktop services, cyber security advice, VoIP installation and management, website hosting and system analytics.

We insist on a pricing structure which is transparent and fair and we welcome enquiries from businesses of all sizes. Call or email now for an informal chat about your company.
